Dear Dr. Hammitt:

Thank you for your letter and review report of September 15, 2010, providing advice on the U.S. Environmental Protection Agency's second prospective study of the benefits and costs of the 1990 Clean Air Act Amendments. Your advisory letter offers important perspective and recommendations on the EPA's assessment of the air-quality effects of the 1990 Clean Air Act programs.

Your additional review of the refined and corrected air-quality-change estimates was especially helpful and informative. I appreciate efforts to provide this important and timely advice to the council to support its review meetings on September 2 and 3, 2010, and to support the EPA's ongoing work to refine and finalize the second prospective study.

Please know that I truly value the advice and assistance of the council and its subcommittees and share your interest in continuing our effective working relationship.

Sincerely,
